

## Household Hazardous Waste Events

### Household Hazardous Waste Schedule

Household hazardous waste collections are open to residents of our member towns and proof of residency is required. If you are not a resident of a member town, please contact your local town administrator for information on the disposal options available to you.

You can also download a pdf of the 2010 Events Schedule.

Friday, October 1&ndash; Bakersfield Town Garage

4 pm-7 pm

Saturday, October 2&ndash; Georgia NWSWD Facility

9am &ndash;2pm

Small businesses that have Hazardous Waste to dispose of are asked to register in advance by calling 524-5986. To be eligible to bring waste to a Household Hazardous Waste collection, businesses must generate less than 220 lbs or 27 gallons of hazardous waste per month. If you are unsure if your business qualifies, please call NWSWD for assistance.

## Fees

Households - \$5 per car (based on 5 gallons) and \$1 per gallon over first 5

Small Businesses - \$50 per gallon

Fluorescent Bulbs - \$.10 per foot and \$.45 per CFL for both households and businesses.

## What to Bring:

### Automotive Fluids

Motor oil, used antifreeze, and other auto fluids may be brought to the collection for safe disposal.

### Rechargeable batteries

Nicad, lithium, and button batteries should be brought for proper disposal. Alkaline batteries may be disposed of with your household trash.

### Paints and Chemicals

Oil based paint, solvents, varnishes, pool and hobby chemicals can all be brought to the collection for safe disposal.

#### Lawn and Garden Chemicals

Both pesticides and fertilizers should be brought for disposal, as run-off from fertilizers can cause environmental damage.

#### Household Cleaners

Furniture polish, chlorine bleach, drain cleaners, metal polishes and any cleaners labeled Danger! Poison! Warning! and Caution!

#### Fluorescent Bulbs and Mercury Containing Devices

Fluorescent bulbs and thermometers or manometers containing mercury can also be brought to our office.

#### What Not to Bring:

Alkaline batteries

Newer alkaline batteries may be disposed of with your household trash.

## Asbestos

Asbestos should be handled by a licensed asbestos abatement contractor. Contact the Vermont Agency of Natural Resources at (802)891-5958 for a list of contractors. The WSI landfill in Moretown can also accept up to 10 cubic yards of asbestos. You must make arrangements with the scale house operator at (800)891-5476.

## Ammunition and Explosives

Please contact the State Patrol Explosives Unit at (802)244-8727 to arrange for proper disposal of ammunition, fireworks, and flares.

## Medical Waste

## Smoke Detectors

Smoke detectors contain a small amount of radioactive material that can be dangerous if broken open. They should be sent via ground shipping, not air, to the manufacturer. Mark the package "for disposal." Two common manufacturers of smoke detectors are First Alert (800)387-4219 and American Sensors (800)387-4219.

## Latex Paint

Latex paint is not hazardous. It can be allowed to dry and then placed in your household trash. You can also bring it to Newton's Decorating Center, 10 Valley Crossroads, St. Albans, (802)524-9258. They run a free reuse program for latex paint.

## Tires and Scrap Metal

Tires and Scrap Metal may be brought to our Special Trash Collections.

## Fees

Households - \$5 per car (based on 5 gallons) and \$1 per gallon over first 5

Small Businesses - \$50 per gallon

Fluorescent Bulbs - \$.10 per foot and \$.45 per CFL for both households and businesses.
